BEDCARE™

Elegance

Luxurious Allergy Protection
For Your Bedding & You

Guaranteed Quality
Made In North Georgia
By National Allergy

Top-Of-The-Line In Luxury And Construction

BedCare™ Elegance encasings are for those who want the very finest, most luxuriously soft and cool encasings available anywhere. Elegance covers are made from a high performance, 100% polyester microfiber fabric that blocks all dust mite allergen and most other particles even as small as cat dander. They remain breathable beneath your sheets, so you always sleep comfortably. We take extra care in the design and construction of Elegance encasings with features such as inner zipper covers, bound seams, and mattress side panels to give them a perfect fit even after repeated washings. These encasings are made in our own factory in North Georgia, and each and every mattress encasement is hand inspected to maintain top quality. Mattress encasings are now made with BugShield™ zipper closures for bed bug protection. Mean pore size of 2.9 microns. Machine wash and dry. *Lifetime Warranty.*

BEDCARE™ Ultra

Comfortable Allergy Protection In Polyester & Cotton

The Comfort Of Polyester Blended With Cotton

Cotton-lovers get excellent protection and breathability with our BedCare™ Ultra encasings. These soft but durable membrane-free encasings are made from 65% polyester combined with 35% all-natural cotton. The fabric is so tightly woven that it blocks dust mite and other allergens, and almost nothing but air passes through. Zipping your mattress into this encasement provides total protection on all sides with no gaps or openings. And because we don't use any plastics to make it allergen-proof, air and moisture transmit readily through the fabric leaving you cool and comfortable all night long. If you like cotton, you are going to love these anti-dust mite mattress & pillow covers. Ultra encasings are made in our North Georgia sewing facility so we guarantee the quality. Mattress encasings are now made with BugShield™ zipper closures for bed bug protection. Mean pore size of 4.6 microns. Machine wash and dry.
Lifetime Warranty.

Water Resistant Mite-Proof Covers For Your Bed

BedCare™ Classic dust mite and mold impermeable pillow and mattress covers are made of a lightweight, polyester-knit, outer fabric joined to an ultra-thin, allergen-proof, ComforTech™ polyurethane membrane. Because of this water resistant barrier membrane*, these encasings cannot be measured in terms of mean pore size as nothing passes through them. Classic encasings have premium, rustproof zippers and reinforced seams. These encasings are sewn with care in our own North Georgia sewing plant, and they are made to last. Mattress encasings are now made with BugShield™ zipper closures for bed bug protection. Machine wash and dry on lowest setting. *Lifetime Warranty.*

** To maintain water resistant barrier, do NOT use bleach or a hot dryer when laundering.*

Lightweight Breathability And Dust Mite Allergen Protection

This lightweight, incredibly soft and breathable woven encasing gives you excellent comfort and perfect protection from mite allergen while you sleep. BedCare™ Supreme is a 100% polyester microfiber barrier fabric woven so tightly that dust mites and their allergen can't pass through. Other encasings made of highly constructed allergen barrier fabrics like ours often cost much more. The skilled craftsmen in our North Georgia factory know that the care they take in making each cover is important to your health, and they take their work very seriously. Mattress encasings are now made with BugShield™ zipper closures for bed bug protection. Mean pore size of 4.6 microns. Machine wash and dry. *Lifetime Warranty.*

Affordable, Durable Comfort And Protection For Mattress, Box Spring, And Pillows

BedCare™ Economy encasings offer complete dust mite protection in a lightweight zippered encasing – and at a very affordable price. The non-woven, tri-laminate fabric is durable and breathable for lasting comfort. These encasings are designed for low maintenance – put them on and there's no need to give them another thought. They will provide years of trouble-free protection and allergy relief. These encasings are a great choice for guest rooms, dorm rooms, and travel. So low-priced, they are a great odor-free, noise-free alternative to vinyl for your box spring (at right). Mattress encasings are now made with BugShield™ zipper closures for bed bug protection. Machine wash and dry, but only when necessary. *10-Year Warranty.*

Complete, Comfortable Protection For Your Bed

Doctors recommend encasing box springs in addition to mattresses for complete protection from dust mite allergen. For people who are sensitive to the smell of vinyl or find it noisy, BedCare™ Economy Encasings make an affordable alternative in a non-woven microfiber fabric. These encasings are low maintenance and will provide years of trouble-free protection and allergy relief. BedCare Economy Encasings also make a durable, breathable, low-cost choice for your mattress (at left). Available in 9" depth and 5" low profile depth. *10-Year Warranty.*

An Allergen Barrier That Is Made To Last

Many people choose BedCare™ Vinyl Box Spring Encasings since they are not sleeping directly on the vinyl, and the price is attractive. These vinyl encasings utilize a revolutionary proprietary design that incorporates super tear-resistant Duralast™ vinyl and a patented SecureZip™ zipper. The result is a vinyl cover that is very high in tensile strength and a zipper construction that is virtually tear-proof providing both quality and performance at a very low price. *Lifetime Warranty.*

Make Your Mattress Softer

A comfortable sleeping surface helps you sleep in one position longer, so you sleep more deeply. That's the whole idea behind our Natural Living® Down Alternative Mattress Topper with Ingeo™ Fibers. This topper keeps its 3" loft much better than down, because the natural fibers made from renewable materials, like corn, spring back after use. The 7-inch channels keep the hypoallergenic fibers in place. The silky soft, 230TC, all-natural white cotton shell feels softer than most sheets, and the fiber fill resists the growth of bacteria to help maintain freshness. So, a better night's sleep is just a mattress topper away! *10-Year Mfr. Limited Warranty.*

A Down Blanket With Unsurpassed Beauty & Comfort In A Year Round Weight

The luxurious Pacific Coast® Down Blanket is designed and sized to be tucked along with your sheets. The weight is ideal for summer use, warmer climates, and those who sleep warm. It is also great to combine with a year-round comforter for extra warmth. The outer shell of this down blanket won't leak feathers and down because it's made with a 230-thread count, 100% cotton, tightly woven Barrier Weave™ fabric. The HyperClean® process in which the fill is washed and rinsed up to eight times ensures allergen and dirt free down and feathers. This snuggly blanket is box stitched to prevent shifting of the down fill and finished with a handsome matching satin edge. The Pacific Coast Down Blanket is so comfortable that you'll never want to use anything else.

Waterproof Pad

Our partial coverage, waterproof mattress pads are the perfect bedding and sheet protectors for cribs, twin, and full beds. Simply place the Waterproof Mattress Pad over the fitted sheet and tuck the 20" flap under each side of the mattress to hold the pad in position. Our waterproof pad is so absorbent that it holds up to 48 ounces of water. Made of a special tri-laminate material with a vinyl waterproof backing, this pad withstands hundreds of machine washings and dryings. These waterproof pads are made in our own North Georgia factory where attention to quality is a top priority.

Our BedCare™ Elegance Mite-Proof Pillow Has A Convenient Built-In Encasing

The shell of this pillow is made from our BedCare Elegance fabric which is our top-of-the-line, most luxurious to the touch material. The 100% polyester microfiber fabric is so tightly woven that even the smallest allergens can't pass through, but air can so it is cool and breathable. And the polyester fill makes this pillow tops in softness and comfort, too. Since the shell is mite-proof, you get a pillow and an encasing all in one. Machine wash and dry. *5-Year Warranty.*

The Pillow That Stops The Growth Of Cold And Flu Germs

Most pillows begin growing mold, bacteria, and dust mites soon after you start using them, and the problem only gets worse over time. That's because we breathe moisture into our pillows as we sleep. But we designed our exclusive new Healthy Dreams® Pillow with the Micrenza™ bio-filter to be the first truly germ-free, mold-free, and allergen-free pillow available, so you can sleep safely without breathing in harmful biological particles that cause congestion and infection. No other pillow has a hospital-grade filter to protect you.

Great Sleep Starts With Our Beautyrest® MicroDown™ Pillow

If you enjoy the soft, silky feel of down, but your eyes and nose tell you not to go there, you'll swear that our MicroDown™ Pillow is the "real thing". But it's not; these pillows contain no feathers or down, so there is nothing to make your eyes or nose itch. Soft, down-like microfibers are finer than silk but completely hypoallergenic, so you can spoil yourself with comfort without aggravating your allergies. This pillow, with gusseted sidewalls, offers extra neck support for side sleepers and is made with a 100% cotton, 230-thread count cover. Washable. Pillow should be encased to remain mite free (see pages 4-7). *5-Year Mfr. Limited Warranty.*

Fabulous Fluffiness In A Lightweight Down Comforter

The Pacific Coast® Light Warmth Down Comforter is ideal for sleepers who need less warmth at night or for those who live in warmer climates. True baffle box design allows the down inside to loft while minimizing shifting across the comforter. This means you get a fluffy feel without being too warm. The 300 thread count 100% cotton Barrier Weave™ fabric prevents the down inside from sneaking out. Only Pacific Coast down and feathers are HyperClean®, a unique cleaning method that washes and rinses the down up to eight times, removing dust, dirt, and allergens. You are left with only clean, fluffy, supremely comfortable down. *10-Year Mfr. Limited Warranty.*

Small Footprint, Quiet Operation, Cleaner Air

The Whirlpool® Whispure™ Tower Air Purifier fits inconspicuously into any room to cleanse the air you breathe of irritants and allergens such as dust, pet dander, pollen, tobacco smoke, fabric fibers, and mold spores. 99.97% of particles as small as 0.3 microns are removed and trapped by the true HEPA filter as air passes through it. The charcoal pre-filter also traps VOC's and odors. Features include: 3 fan speeds, Auto Mode, Sleep Mode, filter replacement indicator lights, and much more. With a small footprint (29.1" H x 9.8" W x 9.8" D) and whisper quiet operation (40-49 decibels), it's barely noticeable in any room (optimum for rooms up to 200 sq. ft.). Simply plug it in and begin enjoying cleaner air. *5-Year Mfr. Limited Warranty Plus Our 100% Money Back Guarantee.*

Experience Fresh Air And Germ Protection

Honeywell® Enviracaire® True HEPA air cleaners retain 99.97% of room dust, certain airborne germs, mold spores, dust mite allergen, and animal dander that pass through the filter. Features include: 3-speed motor, updraft clean air exhaust, an Intelli-Check™ filter monitor, and SurroundSeal® technology with a universal true HEPA filter. Plus, it's a lightweight, manageable size that is easily portable with built-in handles. Filter changes are easy, too, with no tools required – simply screw off the lid to the filter compartment. Pre-filters should generally be changed every 3 months with normal use. Permanent HEPA filters should be vacuumed regularly for optimum performance. Get rid of that runny nose, itchy and swollen eyes, and frequent sneezing and wheezing caused by airborne contaminants with a Honeywell air purifier. *5-Year Mfr. Clean, Great-Tasting Water At Your Fingertips

New!

WaterChef® Countertop Water Filtration is the convenient, money-saving way to improve the taste of teas, coffees and recipes as well as have great-tasting water for drinking. The filter lasts up to one year filtering the equivalent of 7000 bottles of water. The monitor light lets you know exactly when to change the filter, and you can easily switch from tap to filtered water to preserve the filter. Common tap water contaminants are reduced, while beneficial minerals remain in the water. The WaterChef delivers healthier water with greater savings and convenience and less impact on the planet.

Easy-To-Install Under The Sink Water Filter For Healthier, Great-Tasting Water

The Filtrete™ Home Water Filtration System from 3M is easy to install under your sink with only minimal tools and skill. All you need on hand is a drill, a Phillips screwdriver, an adjustable wrench, and a utility knife or poly tube cutter. Everything else you will need for installation comes in the box. The 6-month filter reduces parasitic cysts, chlorine taste and odor, and reduces sand, soil, rust and sediment. The replacement filter is changed with no tools – it only takes a quarter turn to put it into place. It's as easy as that to have healthier, great-tasting water coming right out of your faucet.

Great-Tasting Bottled Water – The Environmentally Friendly Way

With the Filtrete Water Station from 3M, it is possible to have the convenience of bottled water without adding used plastic bottles to landfills. It's economical, too, because it is so easy to turn regular tap water into your own homemade bottled water, and the filter lasts about 3 months – up to 100 gallons of water. Pour water through the filter to reduce sediment, chlorine taste, and chlorine odor. Filtered water fills one to four BPA-free, 16.9-oz. bottles at a time. Four press-on-top, white-strap bottles are included with the Water Station. Some can be kept cold in the refrigerator, while some can be getting filled at the Water Station. Dishwasher safe.

Stop Dust Before It Enters The Room

Attach DustChek™ filters to your HVAC vents and in just a few weeks, you'll see plenty of trapped dust, dirt, and lint you might have otherwise inhaled. These high-grade, electrostatic, polyester filters capture the dust coming out of the ductwork. Choose the 16" x 60" roll and cut to the size of your incoming air vents or choose the pre-cut pack of six 7" x 11" filters. Please check your vent size before ordering. For best performance, cover no more than two or three vents, change filter monthly, and treat with Goodmorning™ Purifying Spray (below) to help stop mold. 30" installation strip included, and additional strips are available.

Safely Kill Dust Mites Living In Your Carpet

Dustmite And Flea Control™ from The Ecology Works® is a natural boron compound that effectively kills dust mites, but is completely harmless to your family and pets. Mix the powder with water to use in a spray, or use it in a carpet steamer or wet extraction machine. For ease of use, try the pre-mixed solution without sacrificing dust mite killing abilities. The 8-oz. bag covers 200 sq. ft. of carpet as a spray (or 100 sq. ft. in a wet extraction machine). The 2-lb. bag covers 800 sq. ft. as a spray (or 400 sq. ft. with wet extraction). The pre-mixed spray treats 100 sq. ft. For best results, use twice annually and apply Anti-Allergen Solution (below) in between treatments.

Neutralize Dust Mite Allergen & Pet Dander

Anti-Allergen Solution from The Ecology Works® neutralizes the protein in dust mite allergen and pet dander and encapsulates the elements of these proteins to keep them from recombining, so they can never cause an allergic reaction. This plant-based formula is clear, stain-free, and non-toxic. It can be safely sprayed directly on all washable surfaces including carpet, upholstered furniture, vehicles, clothing, and pet bedding. Use Anti-Allergen Solution every 60 days between applications of Dustmite And Flea Control™ (above) for maximum effectiveness. Quart covers about 500 sq. ft.; gallon covers about 2000 sq. ft.

Safe And Natural Allergen Neutralizer

Allersearch ADS™ Spray* is one of the environmental controls most recommended by allergy specialists. Dust mite allergen and animal dander can be kicked up just by walking across carpet and trigger allergic reactions such as sneezing, wheezing, runny nose, and itchy eyes. Safe and virtually odorless, Allersearch ADS has been proven to neutralize allergens on carpet and upholstery. Quart covers about 500 sq. ft.; gallon covers about 2000 sq. ft. Repeat every 2-3 months and alternate with X-Mite® (see page 27) for maximum effectiveness. Future carpet cleaning should be done with a dry method only. See Capture® Dry Carpet Cleaning Kit (on page 25).

Gallon Refill **60-2128 $93.96**

** Not for use on white or off-white fabrics or on water-sensitive materials such as silk or Haitian cotton. For whites, see Allersearch ADMS on our website.*

Neutralize Allergens At A Great, Low Price

AllerSafe™ Dustroy™ neutralizes the protein in dust mite allergen and animal dander and renders them harmless to you, your pets, and your environment. The plant-based formula has no added fragrances or dyes and no tannic acid so it won't stain your furniture or carpet. Lightly mist on carpets, rugs, or upholstered furniture and allow to dry. Heavy application may cause stickiness, but excess can be wiped off with a damp cloth. Use every 2-3 months and after each steam or dry cleaning. 32-oz. bottle covers about 500 sq. ft.; gallon covers about 2000 sq. ft.

Clean And Freshen Carpet Without Steam Cleaning

Capture™ Carpet Cleaner deodorizes and cleans while removing surface allergens from your carpets and upholstered furniture. Its advanced formula polymers act like little sponges to collect and hold dirt and allergens so they can be easily vacuumed up. Simply lightly spray on the pre-mist (use a little extra on soiled spots), then brush in the powder. Allow time (at least 30 minutes) for Capture to work, then vacuum. Getting rid of dirt and allergens has never been easier. Kit includes 24-oz. soil release pre-mist spray, applicator brush, and 4-lb. pail of Capture – enough for 400 sq. ft. Use as often as needed on spots, high-traffic areas or the entire carpet.

The All-In-One Carpet Treatment

Made In The USA

Try the X-Mite® complete treatment system that cleans your carpet while reducing mite allergen and animal dander – two major triggers of asthma and allergic rhinitis. Just apply the moist powder every 2 to 3 months by brushing it into carpeted surfaces (see optional application rake below). When dry, remove the product by vacuuming. X-Mite both cleans and neutralizes allergens for a cleaner, allergen-free home. The 1-lb. bag treats approximately 150 sq. ft. Not for use on cottons, silks, or Oriental rugs. For the most effective treatment, rotate use of X-Mite with Allersearch® ADS™ Spray (see page 23).

1-lb. Bag **60-2101** **$23.99**

Easily Work Carpet Treatment Powders Down Into Carpet Fibers

Spread X-Mite or any other carpet powder evenly and deeply into your carpet or area rug to reach the most allergens possible. Designed for the job, this rake is 12" wide with a 54" handle.

No More Irritating Paint Smell

If you have been wondering how to eliminate paint odor, Odor Shield is what you need. This odor neutralizer will eliminate paint odor while you are painting and while paint is drying. Paint odor removal is easy – just add Odor Shield to interior or exterior paints, stains, primer, epoxy, urethane, varnish, solvents, and enamels. The overall performance of paint and other applications is not affected. Painting, especially in small spaces, is so much easier without the smell. May need one or two bottles per gallon depending on type of paint. See our website for details.

Discover Mold So You Can Eliminate It

The first step to fight mold in your home or work environment is to learn how much mold you have and what kind it is. Easy-to-use Immunolytics Mold Test Kits identify the mold that is in the air you are breathing so you can take steps for elimination. Once the test is complete, you'll have the added benefit of a free phone consultation if you need further help or advice. The kit includes two test plates, instructions that explain how to use the test and how to call the consultant, and a complete report with color photos of what grew in your test plates. Additional individual plates are available for purchase if needed.

The Best One, Two Punch Against Mold & Mildew

Step One:

Remove Ugly Mold Stains And Mildew Stains Without Chlorine Or Bleach

All Purpose NAS-12™ is a safe, non-chlorine, non-toxic, biodegradable, virtually odorless cleaner. It is designed for removal of mold stains and mildew stains, but the improved formula works equally well on all household dirt. Chlorine bleach products can be harmful to you and to surfaces with prolonged use, and no chlorine means NO HARSH FUMES! Just spray NAS-12 on, let stand for a few minutes, scrub lightly with sponge or cloth, and rinse.

Step Two:

Block Mold & Mildew For Up To Two Years With One Application

No More Mildew™ forms a micro-thin sealant coating that helps the treated surface resist mold and mildew growth for up to two full years (areas consistently exposed to water may require more frequent application)! Just think of the benefits No More Mildew offers – no more scrubbing every few weeks, no more breathing in noxious chlorine fumes, no more mold odor or musty smell. Mild, non-toxic, virtually odorless solution works on any surface where mold and mildew grow including basement floors and walls, crawl spaces, indoor plant soil, bathroom and kitchen surfaces, boats, lawn furniture, brick, painted surfaces, and roofs (please note: do not use on glass or natural stone). The new formula lasts longer, requires less shaking, and stays mixed longer. No More Mildew will not work properly with chlorine/bleach based cleaning products. Quart bottle covers 75 sq. ft.

Moisten Dry Winter Air

The NatureSpirit® Ultrasonic Cool Mist Humidifier adds moisture to dry, winter air to make breathing easier and combat dry skin. Use the unique self-rotating mist dispenser to help get moisture into every nook and cranny, or mist can be concentrated in one direction if you prefer. It's ideal for someone with frequent nasal or chest congestion, allergies, or skin conditions like eczema. Quiet operation is a benefit of the noise control design. The automatic shut-off when the water tank is empty is important for safety. The continuous setting dial lets you control the amount of mist you desire at infinite levels. The water level indicator light lets you know when the tank needs to be refilled at a glance. All these great features make this unit very convenient and safe to use. *1-Year Mfr. Limited Warranty.*

Get Quiet Comfort, Plus Germ Protection And Self-Adjusting Humidity Levels

When the humidity outside drops, our home environment often gets so dry that we develop dry, itchy skin and nasal/sinus problems as a result. The pureguardian™ Ultrasonic Humidifier can help adjust the humidity to a comfortable level again...almost silently. Only clean water is vaporized into the room due to its use of nano-silver technology that fights the growth of mold and bacteria in the tank. The 6-lb. pureguardian has manual controls that allow you to adjust the humidity level as well as choose either warm or cold humidification as desired. When the 1.4 gallon tank is low on water, an LED on the front panel will light up and the unit will shut off. For optimum dust mite and mold control, humidity should always remain between 40% and 50%. *3-Year Mfr. Limited Warranty.*

Safely Keep Humidity At Proper Levels

Hunter® has engineered their cool mist humidifier to be both low maintenance and self regulating. The PermaWick® wick never needs replacement, saving money and time, and the top-down water dispersion design helps eliminate mineral build-up. A built-in humidistat regulates and controls humidity. The antimicrobial properties inhibit the growth of bacteria, mold and fungi on the filter and plastic parts. The Regulated Release System eliminates stagnant water that can lead to poor evaporative performance. The refill indicator light, the generous 2.5 gallon tank capacity, automatic shutoff, 2 speed fan, night light, 36-hour run time, and easy carry ToteAway™ Tank are some of the many features that add up to a care free humidifier you can count on when the air gets dry and you and your family become uncomfortable. *5-Year Mfr. Limited Warranty.*

Dehumidify To Easily Reduce Mold And Dust Mites In Your Home

Keeping relative humidity around 45% can make a big difference in the dust mite population, the growth of mold, and musty odors in your home. The Soleus Air dehumidifier can operate in temperatures as low as 41° F without icing up, making them usable in any room – even in your basement – almost year round. Pick the model that is best for you by the rating that refers to how many pints of water can be removed from the air in a 24-hour period. Sturdy casters make this remarkably small unit easy to move from room to room. These dehumidifiers automatically shut off when the bucket is full or you can choose the drain hose option for continuous operation. Soleus Dehumidifiers are Energy Star® rated, and that means savings of up to 10% per year over standard dehumidifiers. *1-Year Mfr. Limited Warranty Plus Our 100% Money Back Guarantee.*

Discover The Ultimate In Dry Dusting

Dust jumps on and clings to the Dust Grabber® Advanced Electrostatic Dust Cloth. This chemical-free, additive-free nylon/polyester microfiber cloth is pre-washed, pre-softened, and pre-shrunk in its generous 18" x 18" size. This cloth can be used dry on all surfaces because it will not scratch, and it leaves no film. Use it to dust TV screens, computer monitors, blinds, furniture, and glass. Attach it to a mop head to dust floors or grab cobwebs on walls or ceilings. Machine wash and dry this eco-friendly cloth over 100 times with no loss of performance since the electrostatic surface charge won't wash out.

Enjoy Better Breathing & Softer Hair And Skin With Chlorine-Free Showers

The contemporary-designed Sprite® Shower Up Filter has a 20" extension arm, 6" pan style shower head, and built-in filtration system. Chlorine-free shower water means a healthier home because chlorine vaporizes in hot shower water and, when inhaled in the lungs, is transferred into the blood stream. The Sprite filter system also removes dirt, sediment, odors, hydrogen sulfide, and iron oxides if in the water. Plus, there are the added benefits of softer hair and smoother skin when chlorine is filtered out of your shower water.

Stay Fresh All Day

Naturally Fresh Deodorant Crystal™ stops odors naturally using non-irritating pure mineral salts. Receive up to 24-hour, hypoallergenic protection against body and foot odor. This deodorant works by inhibiting bacterial growth on your skin, and no bacteria means no odor! Contains no perfumes, alcohol, parabens, aluminum zirconium, or aluminum chlorohydrate, and it doesn't block pores which permits the pores to excrete toxins naturally. Deodorants are preferable to anti-perspirants because deodorants don't interfere with sweating, a natural cooling process. A thin, invisible layer of mineral salts works all day long to keep odor from developing.

flowers from our friends

"I recently ordered the Whispure Whirlpool Air Purifier AP51030K after reading Consumer Reports' top rating for this product. I looked first in my local area to buy the product, but it was unavailable here. I could have ordered the product from Amazon, but chose to make my purchase from National Allergy because I saw that they carry products manufactured in the US, contrary to a local chain store selling products from China. National Allergy made the whole process very easy from my online order to delivery. The product is everything it was advertised to be and I'm delighted with my purchase. I didn't expect such great customer service. Thank you!"

#1-Selling Japanese Medicated Skin Cream

If you are one of the millions of Americans who suffer from dry skin, you'll love the deep moisturizing strength of Yu-Be® products. The moisture in skin can be lost due to dry air, low temperatures, dehydration, or water exposure. The natural ingredients in Yu-Be Moisturizing Skin Cream combat the negative effects of these sources of dry skin. There are no added fragrances or artificial colors. The yellow color is from the vitamin B2 and the faint odor is from the camphor that dissipates quickly after application.

Ease Knee Pain With Compression & Natural Body Heat

The Thermoskin® Arthritic Knee Wrap relieves knee pain associated with sports injuries, arthritis, swollen knee, or fluid on the knee. The adjustable velcro closure allows for greater comfort, ease of use, and compression variation. Heat therapy is most effective when it can be applied over extended periods of time and Thermoskin does just that since the heat is supplied by natural body heat generated by the unique inner layer of the wrap. To ensure proper fit, measure the circumference of your leg under knee cap of slightly bent knee.

Recharge Your Immune System Naturally

Naturasil™ Immune Renew™ contains Standarized Astragalus plus a proprietary mushroom blend high in 1,3 Beta Glucan to boost the immune system. 1,3 Beta Glucan activates macrophages which are key components in the immune response that recognize and eliminate foreign substances in the body. In non-clinical studies, Astragalus has been shown to enhance T-cell and Natural Killer cell activity. Natural Killer cells are those that attack cells that have been invaded by infectious microorganisms such as viruses and are one of the body's ways of fighting disease. Naturasil Immune Renew supports the immune system in maintaining good health. Vegetarian formula.

The Easy Way To Soothe Irritated Sinuses

Sinuses feel fresh and clear after a gentle, soothing Hydro Pulse™ nasal irrigation treatment. Hydro Pulse was designed by a board-certified ENT to mimic the natural motion of the nasal cilia (microscopic hairs) with a pulsating stream of saline solution – not a steady stream. Nasal/sinus irrigation is a safe, drug-free remedy that has been medically proven to soothe and relieve irritated sinuses. It is recommended for post nasal drip, chronic sinusitis, recurrent sore throats, excessive thick mucus, nasal snoring, ear blockage, and more. *1-Year Mfr. Limited Warranty.*

Improved Nasal Irrigation With No Backwash

The NasalCare® Nasal Rinse Starter Kit fights sinus congestion by washing away allergen and other irritants. The special design of the irrigation bottle employs a pair of one-way air and liquid valves to prevent back flow and allow the bottle to empty completely into your nasal passages. This system prevents contamination of the bottle and possible sinus re-infection. The bottle shape makes it easy to hold and easy to add solution. The clinically proven, FDA-approved kit includes the bottle, 30 packets of saline solution mix, and a protective cap.

Relieve Sinus Congestion And Soothe Irritated Nasal Passages

SinuCleanse® offers two methods for gentle, effective cleansing of nasal and sinus passages to relieve congestion without drugs. The SinuCleanse Neti Pot™ system updates and improves upon the centuries-old method that simply employs gravity to draw water through the nose and sinuses, cleansing mucus. The SinuCleanse Squeeze uses positive pressure to send water through nasal and sinus passages. The bottle and tip are made of dishwasher-safe, antibacterial plastic, and its unique anti-backwash valve ensures safety and cleanliness. The Neti Pot includes 20 saline packets, and the Squeeze comes with 30 saline packets, so you can immediately begin experiencing nasal and sinus congestion relief. Additional saline packets are available in a pack of 100.

Recommended By Doctors For Over 100 Years

Alkalol® dissolves mucus, cleans and moisturizes the nasal passages, and brings relief to irritated sinus and throat tissue. Its refreshing blend of natural extracts and oils leaves your nasal passages cleansed and you breathing freely. Use as a nasal wash, add to your regular nasal irrigation solution, or use as a soothing gargle, oral rinse or throat spray. Whether you need relief from allergies, colds, sinusitis, chronic congestion or throat irritation, use the mucus treatment solution doctors have been recommending for more than a century.

Keep Nasal And Sinus Passages Moist To Help Prevent Infection

Xlear® Nasal Wash (pronounced "Clear") contains only natural ingredients such as saline, grapefruit seed extract (as a preservative), and Xylitol, a substance that is clinically proven to be one of bacteria's natural enemies. It is the Xylitol that sets Xlear apart because it keeps nasal passages and sinuses moist longer than saline alone. That's important because dry nasal passages are vulnerable to infection. Xlear Nasal Wash moisturizes and thins the mucus, and this assists the body's natural process of clearing the nasal passages and washing away bacteria, allergens, pollen and other pollutants. Simply spray 1-2 times in each nostril as needed. Xlear is available in a metered dose bottle or in smaller spray bottles. Safe for all ages.

When Traveling:

At the hotel, place your suitcase inside the TravelSafe bag to protect it and your clothing. On the way home, return your TravelSafe bag to the plastic carrying bag and close securely. Launder TravelSafe bag in HOT water immediately when removed from carrying bag.

When At Home:

If you have a bed bug infestation, use the TravelSafe bag to protect clothing and stored items such as bedding to prevent the spread of bed bugs. After treatment for the elimination of bed bugs, prevent re-infestation by using TravelSafe bags for storage. Use as a protective drawer liner or storage bag so that bed bugs or their eggs do not contaminate drawer, closet, or storage area contents.

Soften Pet's Skin And Reduce Allergen

Allerpet® cleanses away dander and softens the pet's skin so less dander (dry skin flakes) is produced. It also removes another primary source of animal allergen, the saliva that dries on the fur from self-cleaning and then collects in carpet and on furniture only to become airborne later and inhaled (see carpet and upholstery treatments on pages 23-27). The Allerpet Solution is non-toxic, non-oily, and safe for cats, dogs, and other furry or feathered pets. Pour a small amount onto a washcloth and rub into your pet's skin. Allerpet is a moisturizing conditioner, not a shampoo. Pet allergens will significantly drop with regular weekly use, and pets will love the extra attention they get as you gently wipe on Allerpet Solution.
Tip: Use every 4 to 5 days for the first few weeks to reduce accumulation, then once a week after that.
